

APeX Galley Connector, Rectangular

Intermateable and interchangeable with other ARINC 810 galley connectors, AeroFlite offers Amphenol Air LB's APeX galley connector. A rectangular and robust connector, the APeX galley connector uses overmold technology to set it apart from the rest. It also features a guide pin for quick and simple blind mating.

- **Intermateable & Interchangeable**

Ability to mate with other ARINC 810 galley connectors in the market

- **Overmold Technology**

Enables exceptional sealing that improves safety & reliability

- **Blind-Mate Connection**
